## California Area School District Foundation Grant Opportunities (Sponsored by the CALSDF)

The California Area School District Foundation is pleased to continue our "rolling mini-grant" program. Apply anytime the inspiration or need arises. Our 2023-2024 budget will increase to \$3500.00 in total awards throughout the school year. Priority will be given to proposals that enhance the learning experience for students through creativity and innovation, targets a sizeable number of students, is not a one-off project but has a long-term impact or can be used to leverage funding from additional sources.

The objective is to encourage and support teachers who have ideas for creative use of curriculum that will provide enhanced learning experiences for students. The grants are not exclusively for new projects but also to supplement ongoing activities. These grants may enable the purchase and/or replacement of resources within the classroom or for activities outside of the classroom. The grants are intended to support projects not provided for within school budgets or through other means.
